Q3 2024 Financial Results

Unaudited Consolidated Financial Statements | Period Ended September 30, 2024

Investor Relations Department | investors@arctistech.com | www.arctistech.com

Q3 FY2024 AT A GLANCE

Total Revenue	EBITDA	Net Profit	EPS
■ 1,968 Cr ▼ 8.2% QoQ	■ 448 Cr ▼ 8.0% QoQ	■ 204 Cr ▼ 11.9% QoQ	■ 17.00 ▼ 11.7% QoQ

Note: Q3 metrics are shown QoQ (vs Q2 FY2024) due to seasonal softness. YoY comparison: Revenue +19.8%, EBITDA +22.4%, PAT +16.7% vs Q3 FY2023.

CHAIRMAN & CEO COMMENTARY

Q3 FY2024 reflects the typical seasonal moderation we experience in the July–September quarter, driven primarily by reduced deal closures in August and early September due to client budget freeze cycles. Despite this, our year-on-year growth trajectory remains robust at ~20%. Revenue from the AI & Data Analytics Platform crossed ■600 Cr in a single quarter for the first time — a significant strategic milestone.

We completed the rollout of Arctis AI Copilot across our entire Enterprise SaaS suite during Q3. Early adoption data is promising — clients using Copilot features show 34% higher platform engagement and a 28% reduction in support tickets. Our UK office, opened in August, has already signed 6 enterprise pilots. The balance sheet remains strong with net cash of ■1,680 Cr.

— Rohan Mehta, Chairman & CEO, Arctis Technologies Ltd.

CONSOLIDATED PROFIT & LOSS STATEMENT

Particulars	Q3 FY2024 (■ Cr)	Q3 FY2023 (■ Cr)	YoY Change (%)

OUTLOOK — Q4 FY2024 & BEYOND

Management anticipates a strong Q4 FY2024 driven by year-end enterprise budget flush and accelerated onboarding of Arctis AI Copilot customers. Revenue guidance for Q4 is ■2,200–2,350 Cr. Full-year FY2024 guidance remains ■8,100–8,300 Cr. For FY2025, the company plans to invest heavily in GenAI product development and expand its data centre footprint in Chennai and Hyderabad. Board has approved a share buyback programme of up to ■400 Cr commencing Q1 FY2025.
